Hi Dimitri,
Some crispus would be nice, ta.
The moss didn't last long, did it?

p.s. Looking for some female apisto agazizi. Preferably wildish or something like double red. Not the washed out orange etc...

Hi Duzzy

depends on where it's coming from and good old An Post.....:laugh: also bear in mind the cold weather we are having at the moment....you run the risk of the plants getting chilledbut it's never happened to me,I've not lost a plant in the post yet

Hi Murph,

i'll let you know but should be able to get some A.crispus next week!
female agassizi?probably could but not this week i'm afraid...
either way,i'll let you know:)
and yes,i'll get more moss because"didn't last long" :laugh:

Cheers Dimitri.

No rush on the Agassizi, the 2 males can fight over the female for the moment. They seem relatively civilised about things, as opposed to the younger of the 2 checkerboards, who killed the older (much nicer) male last week, a steel blue apisto this week and currently thinks female glowlights are a threat(?!).
Any chance of keeping me some of the moss?

Many thanks,
Tony
